Trump, in five acts from the book present war. He maintained that by Alice M. Roberts. the blame for warfare lay not with christanity as an institution but was EMPLOYES to be found in the wickedness in the hearts of individuals and international jealousies kept up by wicked minded individuals.

While not making any positive prediction as to the matter of duration Dr. Temple leaned to the view that the present war would continue until one or another of the principal nations involved was practically anni-Pass Riders Are Asked to hilated as a nation. He declared in addition that this would not be the last war in the world's history though he expressed the hope that following this terrific conflict it might be sevreal generations before jealous nations again took up arms against each other. In conclusion he said that universal peace could not be a reality until men's hearts were really changed from evil to good.

"And the other." He chuckled, but a slow flush crept over his cheeks "It was thirty years ago, soon after I left college. I went over to see a girl nervous, deadly stab-stab of I thought was pretty nice and to meet! ther folks for the first time. I went 📫 a Sunday. All the men were away. 'And they had duck for dinner." He stopped. "Ever carve a duck?" he eaked meaningly "No, neither had I before. Nor have I since." His blush deepened. "I never even went to see That girl again," he added plaintively.

BAROMETER SHOWS

Some Short Rules for the intelligent Reading of This Most Useful of Instruments.

Do you properly understand the baremeter? Many people tap the glass, gote a rise or fall, say it will therefore be wet or fine, and there end. But there's more in barometrical science than that. The following key might be cut out for reference.

. A sleady rise shows that fine weather may be expected, and, in winter, frost. A rapid rise indicates sesettled weather. Fine weather immediately after a rise must not be expected to last. The barometer often rises from a northward change in the wind. A fall of half a tenth, or Senore in an hour is a sure warning of a storm. A fall with a low thermometer foretells snow or rain. With a rising thermometer, wind or rain from

the south. A fall in winter indicates warmer meather in hot weather thunder Fine weather may occur with a low glass, but it precedes wind or rain. The rise or fall of a barometer rather than its absolute height shows an approaching change, so the usual words. "Fair." "Change," etc., cannot always be depended on. The rise from a low point indicates the close approach of

Press-Gang.

The press-gang was an institution was the mode resorted to for manning the navy. The practice, which had not only the sanction of custom, but the force of law, consisted in seizing by force, for service in the royal navy, seamen, river watermen and at times party of reliable men commanded by | sops of devils: officers, usually proceeded to such houses in the seaport towns as were f supposed to be the resort of the sea- and yet no one moved, and there faring population, laid violent bands | wasn't a sign of the shooting-not a on all eligible men, and conveyed pull of smoke, except when a shraptime the system was becoming obso- alamos off the right came the careless; rocks. tioning impressment are in abeyance, was an incredible dream, though touring car without being repealed.
